

FREE TRIAL SIGN UP GUIDE

Robin Cloud Platform (RCP) For Big Data and Databases

FREE TRIAL HIGHLIGHTS

- » 5-DAY NO COST TRIAL
- » HOSTED ON ROBIN AWS
- » MANY APPLICATIONS INCLUDED
- » INTUITIVE GUI
- » INFRASTRUCTURE MANAGEMENT
- » FREE TRIAL SUPPORT
support@robin.io

1-Click Lifecycle Operations with Robin Features

- » Deploy
 - » Provision any Application with 1-click
- » Configure Infrastructure
 - » Allocate memory and storage
- » Change Application State
 - » Start, stop or delete an Application
- » Take Snapshots, Rollback
 - » Take unlimited Application snapshots
 - » Rollback an Application to any point-in-time using snapshots
- » Clone
 - » Make rapid thin clones of the Application - without any performance penalties
- » QoS (Quality of Service)
 - » Manage IOPs per Application - throttle or give extra IOPs

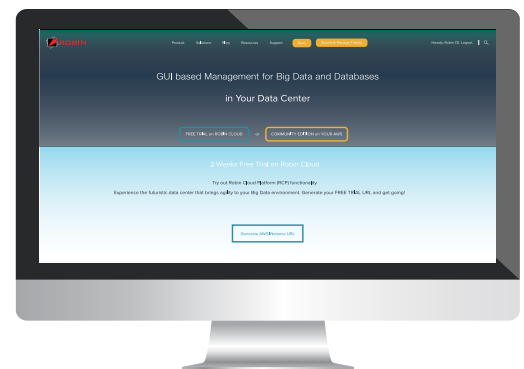

Infrastructure Stages Covered

Robin Cloud Platform is Application agnostic. The platform supports all the applications used in a typical Enterprise scenario and in the various stages in a big data pipeline.

- » Data ingest
- » Data storage
- » Data processing
- » Data serving
- » Visualization

Sign up Process for Free Trial

- » Learn - <https://robin.io/get-robin/>
- » Sign up for the FREE TRIAL - <https://robin.io/get-robin/free-trial/>
- » Check your inbox for an email from Robin Systems.
- » Verify your email address - Click on the “Verification link” in your email.
- » The verification takes a few seconds & automatically logs you in to [Robin Support Panel](#) on the Free Trial access page.
- » You will also see Community Edition here - if you want to upgrade later.

Post-login Robin Support Portal Details

- » You will land on the Download page. Navigate to the “Free Trial on Robin AWS” section.
- » Click the “Generate Free Trial URL” button.
- » This will provision the environment with 3 EC2 instances on Robin AWS in about 30 minutes.
- » We provide 6 x 100GB of EBS storage spread across three M4.2xlarge type EC2 instances - so you can launch Applications.
- » Once the Robin environment is ready, we will display the URL, username, password and the trial expiry date.
- » This information will also be emailed to you.
- » Click on the AWS URL, add the provided username and password to begin your 5 days FREE TRIAL.
- » You will now view the Robin Cloud Platform GUI.
- » Change your password on first login.
- » Access Quick Start Guide in the [Robin Support Portal](#).
- » Connect with us at support@robin.io if you have any questions.

Community Edition

You can also sign up for Robin [Free Forever Community Edition](#) that you can install on your AWS.

If you have any Application beyond our list that you would like to try out, or deploy a containerized Application, connect with us at support@robin.io and we will discuss your case with you.

Applications Included in the Free Trial

- » Cassandra 3.7
- » Centos 7
- » Confluent - Kafka 3.3.0-1
- » Couchbase 4.5
- » DataStax 5.1.2
- » DataStax Opscenter 6.1.2
